

**Amendments to the Specification:**

Please amend the specification as follows:

Please insert the following paragraph between paragraphs [0053] and [0054]:

Referring to the Figures the spout includes a second and third substantially straight portion extending from opposite sides of a first substantially straight portion. Each of the second and third portions have a substantially straight upper edge having a second length greater than the first length of the first substantially straight portion. In one embodiment, the spout includes a first straight portion with a first length and a second and third straight portion having a second length that is greater than the first length. The spout also includes a second and third straight portion having a second length greater than the first length. The second and third substantially straight portions extend from opposite sides of the first substantially straight portion. In another embodiment, the spout includes a first side, second side and third side. Each of the sides includes a straight upper edge. The straight upper edges of the second and third side extend from the first side and through a center line extending perpendicular to the cylindrical wall and parallel to the straight upper edge of the first side.
